### COLORED STONE REPORTS

GIA Colored Stone Reports describe the type of gemstone, if your stone is natural or laboratory-grown, and if there are any detectable treatments. May be loose or mounted gemstones. For mounted items, the gross weight will be measured in grams and carat weight will be approximated to determine the appropriate fee.

#### COLORED STONE IDENTIFICATION REPORT (LOOSE OR MOUNTED)

Contains a detailed description of the gemstone such as cutting style, shape, weight, measurement, and color, and includes a photograph of the gemstone. Loose and mounted fees are for items of all cutting styles. For mounted items, the carat weight will be approximated to determine the appropriate fee. Items weighing over 50 kilograms are not accepted for submission. Discount available for additional stones on the same report.
